

Q/JT 001-2026

Grounded citation validation standard

1 Scope

This document specifies validation requirements for separating evidence records from the standard body.

2 Normative references

GB/T 1.1-2020 Directives for standardization - Part 1: Rules for the structure and drafting of standardizing documents.

3 Technical requirements

The sample shall remain functional after 1,000 cycles.

4 Test method

Run the sample for the specified number of cycles and record its functional state.
